WOODLEA NURSERY

We endeavor always to better serve the requirements of our increasing number of satisfied customers. In keeping with this firm policy we offer many services for your benefit.

1. Service — We pride ourselves in supplying plant material when the customer needs it.

2. Quality plant material and quality digging. Our supervisory staff have a depth of 25 years of superior nursery practice standards — nursery stock is sheared or trimmed tight so that you may offer quality nursery stock to your customers at reasonable prices. We use heavy burlap and, wherever required balls of earth are tied to present a neat and compact package.

3. Delivery — Many customers find it necessary to purchase only from those nurseries which can arrange shipment to their nursery or to the job site. If your order is over \$500 we can arrange shipment via truck or tractor-trailer, depending on size of order, at a most reasonable cost to you.

4. We have increased our “growing” nursery operation due to your increasing patronage and faith in our reliability. This major step will enable us to better serve you in greater variety and in greater depth.

5. We offer top grade bare root plant material, Oregon grown and hardy, **SPRING DELIVERY, priced to give you a good profit on immediate resale or on future sale after growing on in your nursery. Prices quoted are net F.O.B. our nursery — there are no freight, boxing or handling charges to be added. See special section in back pages. Those customers who use large quantities of this fine stock please contact us so that we may quote on your requirements.**

6. We are pleased to locate material for you if this problem arises.
